PROFILE

After graduating with a degree in **Computer Science Engineering**, I decided to pursue my passion for programming. I enrolled in a coding bootcamp and learned **full-stack web development**. My favorite part of programming is the problem-solving aspect. I love the feeling of finally figuring out a solution to a problem. My core stack is **Django, Laravel, Livewire(Volt),Next.js, Node.js, PostgreSQL**. I am also familiar with Data analysis and Data mining. I am always looking to learn new technologies. I am currently looking for a **full-time position** as a software developer. When I'm not coding, I enjoy playing video games, watching movies, and playing with my dog. I also enjoy **learning new things**.
